

Customize Your Inspection

Customize Your Inspection

Don't limit the inspection service you provide because of the reporting software. In addition to the mobile app which starts the reporting process immediately and saves time with features like talk to text, Eneris has included new ways for you to stand out from the crowd by customizing inspections to your client's expectations.

Add Custom Inspection Items

Easily include custom inspection items to differentiate between similar inspection subjects. For example if you have multiple bathrooms with multiple issues per bathroom - you can now have separate sections.

Customize the Order of Inspection Items

Customize the order of inspection items based on your own methodology. If you have multiple inspectors, now you can standardize everyone in the same inspection routine and order. This is simply as easy as dragging and dropping each inspection item in the order that fits your workflow.

Call Us For A Demo

1-888-500-0504

Customize Your Inspection

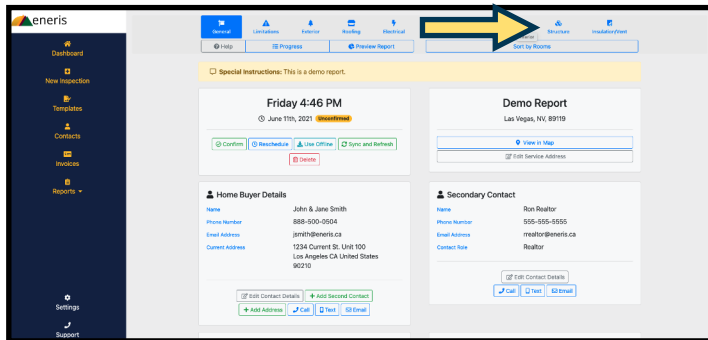

1. From within the Eneris Home Inspection Reporting tool, go the “Dashboard” and click on “Reports”

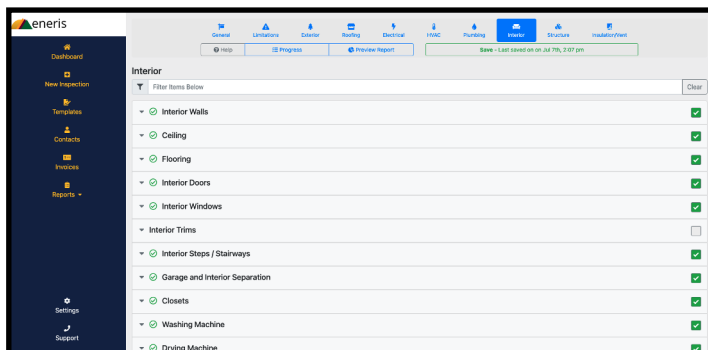

2. Choose the report you wish to customize and click the link

Customize Your Inspection

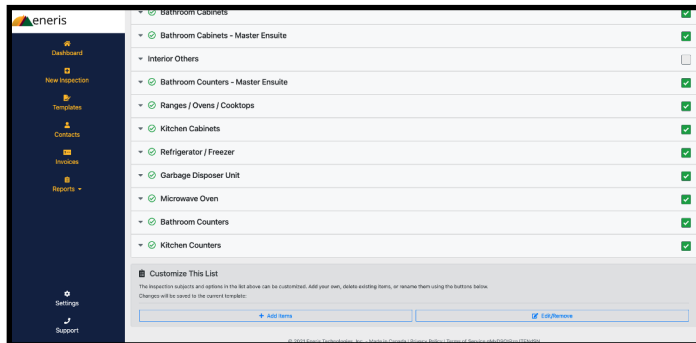

3. You should now be at the main page for the report you selected to customize. Now click on the section that you wish to customize. We will use Interior for this demo.

4. You should now see all the items in the Interior section. Scroll all the way to the bottom of the page.

Customize Your Inspection

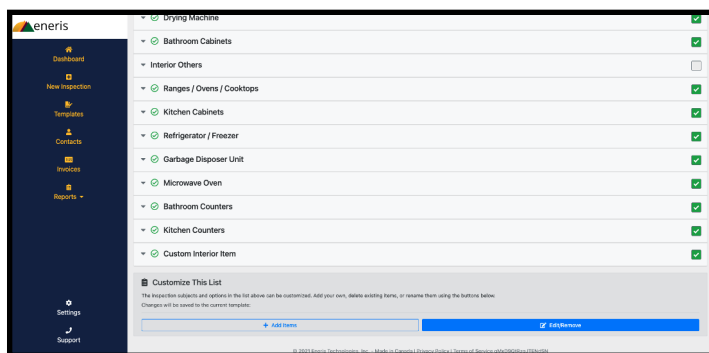

5. At the bottom of the page you will see two buttons. Go ahead and click on "+ Add Items"

Customize Your Inspection

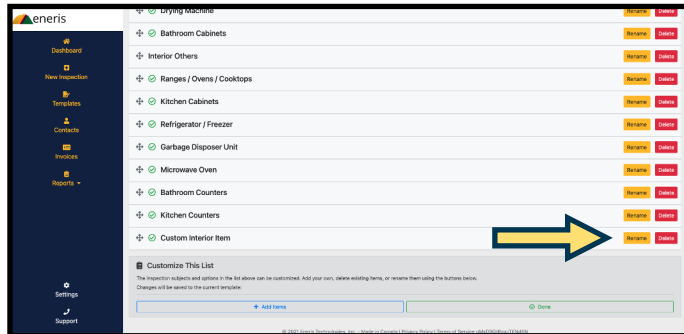

6. You will see a new items at the bottom of the list called "Custom Interior Item"

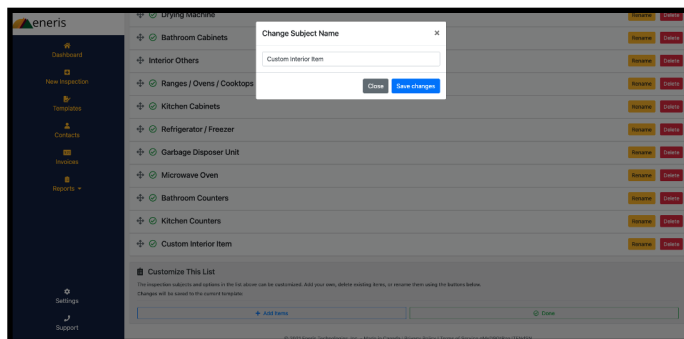

7. Now click on the Edit/Remove button

Customize Your Inspection

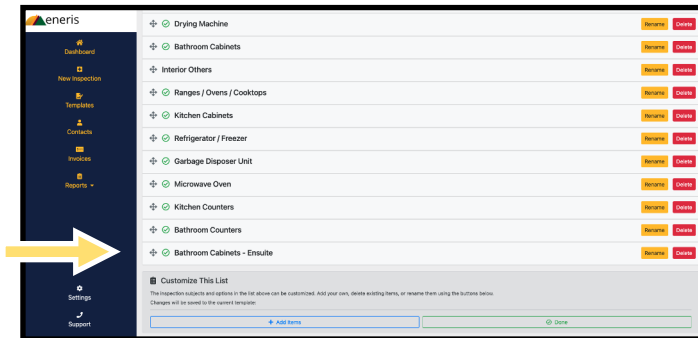

8. Next to each item are "Rename" or "Delete" buttons. Click on the "Rename" button to the right of the Custom Interior Item.

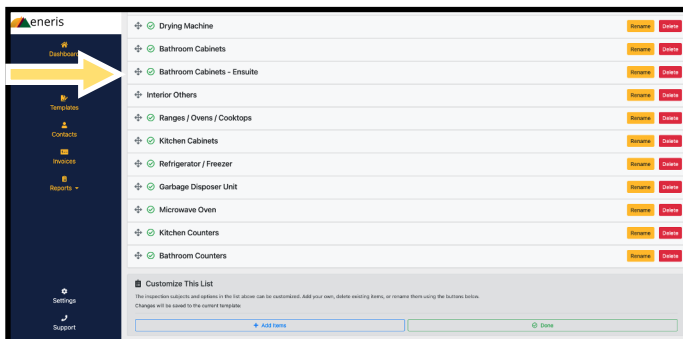

9. This opens a new dialog box that asks for the new name for this item. For this demo we are going to call this Bathroom Cabinets - Ensuite.

Customize Your Inspection

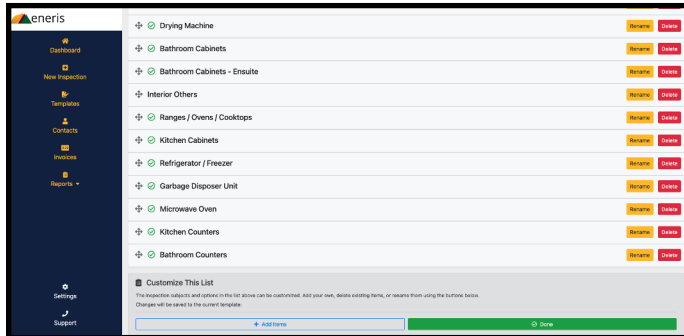

10. You should now see the label for Custom Interior Item has been changed to Bathroom Cabinets - Ensuite. But what if you want this to be below the other item Bathroom Cabinets?

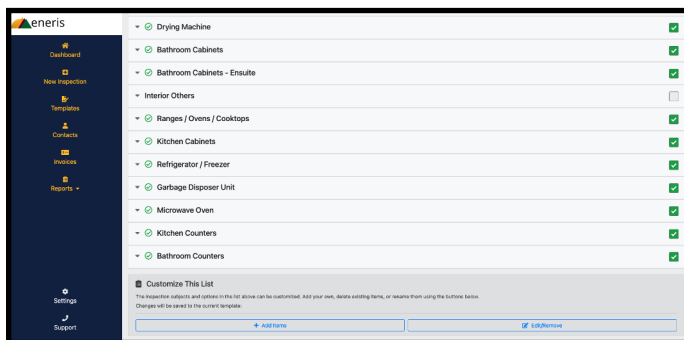

11. Using the "Drag Handles" left of the item, simply drag and drop the item up and down the list to your preferred order.

Customize Your Inspection

12. Make sure you click on the "Done" button to save your changes.

13. Congratulations! You've added a new custom inspection item and placed it in the order you prefer.
